CS 4501/6501: Software Testing
Quiz 5 Guide — Fall 2017

Syllabus Schedule Resources

Quiz 5 will focus on coverage-based test design (lecture 09/19). Specifically, given a rationale for a test, you should be able to determine which of the four coverage criteria (input domain, graph, logic, syntax) is the best fit for that rationale.

Note: you might find that reviewing the concept of RIPR model helpful.
