CS 4501/6501: Software Testing
Quiz 8 Guide — Fall 2017

Syllabus Schedule Resources

Quiz 8 will focus on data flow coverage criteria (lecture 10/17) and application of graph-based testing (lectures 10/10 - 10/19). The quiz will cover applying graph coverage criteria to source code. Specifically, given a Java method, you should be able to create a reasonable control flow graph and identify tests that cover the graph with respect to various coverage criteria.

In-class exercise 9, and Assignment 7 will form the basis for the quiz.
